Subject ( 9087978 ) Re\_ Reports missing from Admin Record 

Dave,

I have a disk with all the information that you have listed. Now, how do I get it to you?

Bret

Subject Reports missing from Admin Record

Bret,

There are several documents that were attached to the Delfasco MSD application and the revisions to the MSD application that were not included in the administrative record. Can you determine if they are in the file. The documents are:

Attached to the original application  
Receptor Survey dated 3/2005 by Ensafé  
Affected Property Assessment Report (APAR) dated 5/2005 by Ensafé  
Drinking Water Survey dated 9/2006 by Ensafé

Attached to the response to City  
Phase 1 ESA  
Phase II ESA  
Amended APAR

The file information is lacking on the previous operators of the Delfasco site and the documents should detail this much better.

David
